Dedicated Customer Portal

The Financial Reality: DIY Vs. Servewell CRM

Thinking of building your own software? Here's a realistic cost breakdown.

WITHOUT Servewell CRM (DIY Approach)

Initial Development: **₹80,000 - ₹1,25,000+**

Why because servewell has many components CRM + Technician App + Customer Portal + Multiple Addons.

Cloud Server + Setup Fees: **₹25,000 - ₹40,000+**

Total Amount Approx: **₹1,50,000+**

Allow Customers To Pre-Book Services, Track Work Status, And View Their History.

Legacy & Vast Customer Experience

We Build What You Need. Your Feedback Directly Shapes The Future Of ServeWell CRM.

Annual Server/Maintenance: ₹25,000 - ₹40,000+

Hidden Costs: No updates, no support, your time wasted on technical issues.

With ServeWell CRM (Readymade Solution for your Business Growth)

Our offering is power packed, easy to use, very economical pricing solution with small renewal fees

Value: Includes all current & future features, mobile apps, AI, support, and server costs. You save over 90% and get a superior, always-improving product.

Focus on your craft, not on code. We handle the technology so you can grow your business.

Your Challenge Statement / The Key Problem Areas / The Difficulty-Obstacles List

We have listed below some of the Challenge Statement, The Key Problem Areas & The Difficulty-Obstacles List which our Idle Customers faces or experience before ServeWell CRM.

1. Wastage of Time on unproductive work

Technicians / Staff doing lot of time waste activities or tasks on unproductive work like search, find, sort details which are present on unstructured mechanisms like multiple papers, excels files etc.

2. No proper record keeping for important Business information

No proper standardize record keeping or tracking mechanism for Customer Details, Payments, Complaints or Issues, Product or Contract details, Spare parts Installed Consumed.

3. No tracking of Technicians & Staff Performance

No recording, tracking & reviewing of Technicians / Staff Performance through standard mechanism which makes them accountable for their Job.

4. No auto reminders for Customers periodic or regular services

No auto reminders or scheduling mechanism in place for AMC Customers or NEW INSTALLATION Customers whom periodic services need to be given due to which Customers satisfaction is suffering.

5. Profit leakage due to no tracking Spares Parts or Chemicals consumption

No tracking & recording of Products, Spares Parts or Chemicals consumption where it is getting used or consume and it is leading to profit leakage.

6. No tracking of Customer Complaints or Service Call and its overall status

No standardization process or work flow in place for Customers Complaints or Breakdown Service Calls tracking in the Company. No idea about the status of Customers Complaints in the Company right from Customers Call Booking to Resolution and hence Customer satisfaction is suffering.

7. Large dependency on Company Owner/Management for day to day routine

8. Poor Documentation for Customers Invoices & Quotations

operations

Business Owner/Management dependency or involvement on day to day operations of business is huge & large because of which Company work getting delayed or efficiency is not upto the mark.

No proper record keeping or data storage for Customers important Bills-Invoices, Quotations- Estimates which can be useful in future references and legal aspects.
